# CONTENTS

*Table of Cases* ................................................................. ix  
*List of Authors* ................................................................. xi

## PART I. THE OVERALL ARCHITECTURE

**The Digital Dimension as a Challenge to European Contract Law**  
- The Architecture  
  Stefan Grundmann and Philipp Hacker  ......................... 3

1. Challenges and Core Features of an ‘Architecture’ ................ 4  
2. Institutional Framework – Regulatory Issues, Platforms, and Global Surroundings ............................................. 17
3. The Use of Digital Technology Over the Life-Cycle of a Contract  
   - From Screening for Parties to Enforcement and Interpretation .... 26
5. Conclusions ................................................................. 44

## PART II. INSTITUTIONAL FRAMEWORK – PLATFORMS, REGULATION ISSUES, GLOBAL SURROUNDINGS

**Digital Contracts in Global Surroundings**  
Dan Jerker B. Svantesson ................................................. 49

1. Introduction .............................................................. 50  
2. Some Central Themes .................................................... 51  
3. The Validity of Choice of Court and Choice of Law Terms in Digital Contracts .............................................. 65
4. The ‘Targeting’ Test ....................................................... 75
5. Concluding Remarks ..................................................... 84

**Regulating Online Platforms – The Case of Airbnb**  
Vanessa Mak ........................................................................ 87

1. Introduction .............................................................. 88  
2. Airbnb – Home Away from Home .................................. 89
3. The Legal Relationship Between Airbnb and the User ....... 90
4. The Relationship Between Host and Guest .................... 96

---

**Personal copy of ()**
Contents

5. Dispute Resolution ................................................................. 98
6. ‘Nimby’ – Disgruntled Hotel Owners, Neighbours and Landlords .... 99
7. Concluding Remarks ............................................................ 101

Crowdfunding in Europe
   Carmen Estevan de Quesada .................................................. 103

1. Introduction ................................................................. 104
2. Concept and Main Characteristics of Crowdfunding ..................... 107
3. Business Models of Crowdfunding and the Legal Nature of the Main Transaction ..................................................... 112
4. Investment-Based Crowdfunding ........................................... 118
5. Concluding Remarks .......................................................... 133

Terms of Service are not Contracts – Beyond Contract Law in the Regulation of Online Platforms
   Przemysław Jacek Pałka .......................................................... 135

1. Introduction ................................................................. 136
2. Contracts for Service vs. Terms of Service ................................ 137
3. Online Platforms as Proprietary Spaces .................................... 143
4. Horizontal Relations, Vertical Relations, and the Code ................. 151
5. Regulating Online Platforms – Beyond Contract Law in Consumer Protection ..................................................... 158
6. Conclusions ................................................................. 160

PART III. DIGITAL FORMATION OF CONTRACT – MORE VIRTUAL AND MORE FORMALISED

   Roger Brownsword ............................................................. 165

1. Introduction ................................................................. 166
2. Unfair Contract Terms .......................................................... 173
3. Profiling and Personalisation .................................................... 181
4. Automated Processing .......................................................... 189
5. The Two Proposed Directives – A New Exceptionalism? ................. 198
6. Conclusion ................................................................. 202
Contents

Connected Contracts Reloaded – Smart Contracts as Contractual Networks
Florian IDELBERGER .......................................................... 205

1. Introduction ................................................................. 206
2. Blockchain and ‘Smart Contracts’ Primer .......................... 207
3. Looking for the Contract in ‘Smart Contracts’ ......................... 215
4. What Came before, and What can be Deduced? ..................... 218
