ACKNOWLEDGEMENTS

This book is the fruit of many years of studying the influence of architectural and design modernism on legal and political thought. Hence several chapters have already been published elsewhere – though only in German, with one exception. Chapters 1 through 3 are based on my book *Der Staat der klassischen Moderne*, published by Duncker & Humblot, Berlin, in 2012. Chapter 5 is taken from my *Rechtsästhetik. Sinnliche Analogien im juristischen Denken*, likewise published by Duncker & Humblot, in 2016. The essay “The Synesthesia of Values: How the Ideals of Modernist Design Predisposed and Shaped Fascist Legal and Political Thought,” published in *The American Journal of Comparative Law* (Oxford University Press), volume 66, issue 4, was turned into chapter 3.

I would like to thank Duncker & Humblot and Oxford University Press for the opportunity to republish these passages in a different context.

Without the generous support of the Claussen-Simon-Foundation this book would not have been possible. My heartfelt thanks go out to Regina Back and the other members of the board.

Thanks are also due to my intrepid translator David Burnett, who faced the sometimes daunting task of rendering source texts from the 1920s and 1930s into comprehensible English.

Furthermore, I owe a great debt of gratitude to Thomas Duve (Frankfurt am Main), Peter Rawert (Hamburg) and Stefan Vogenauer (Frankfurt am Main).

Finally, I thank Ann-Christin Maak-Scherpe and Ahmed Hegazi at Intersentia for their professional production.
