Conflict of Laws and Laws of Conflict in Europe and Beyond

Patterns of Supranational and Transnational Juridification
ACKNOWLEDGEMENTS

The present volume contains the proceedings from the RECON project (www.reconproject.eu) workshop on 'Conflict of Laws and Laws of Conflict in Europe and Beyond – Patterns of Supranational and Transnational Juridification', which I organised and convened in September 2007 at the European University Institute in Florence. The event was held within the framework of RECON Work Package 9 – ‘Global Transnationalisation and Democratisation Compared’.

I would like to thank John Erik Fossum and Christian Joerges as leaders of WP 9, Erik O. Eriksen as the overall scientific co-ordinator of RECON, and Geir Kvaerk and Marit Eldholm for their generous help and support, and all the contributors to this report and the participants in the discussions in Florence for their efforts. I also wish to express my gratitude to Marlies Becker (EUI) for her wonderful help and assistance with the organisation of the event, and to Ernst-Ulrich Petersmann, the Head of Law Department of the EUI, who supported this project from the beginning and gave us the opportunity to hold the workshop at the EUI.

As always, Chris Engert has done an excellent job as our language editor, and I wish to thank him for his patience and sensitive language editing.
